CUNY CELEBRATES WOMEN IN COMPUTING (CUNYCWiC), An ACM Event
May 10, 2019

On May 10, we held an inaugural CUNY CELEBRATES WOMEN IN COMPUTING (CUNYCWiC) celebration conference at the Microsoft Manhattan Midtown Office on 11 Times Square, New York, NY. On the day of the conference, we had 136 participants from 17 different colleges and institutions from within CUNY (City University of New York) as well as outside of CUNY. Microsoft provided the space and facility for the event.

The day was fully packed with presentations and activities including one keynote presentation, three panel presentations, two diversity presentations, three workshops, 21 faculty and student research presentations, and 11 poster presentations. True to its name, we were celebrating, networking, and connecting throughout the day!
